

Job sequencing with Deadlines

Md. Farhan Hossain
 B.Sc. in CSE, UAF
 farhanhossain246@gmail.com

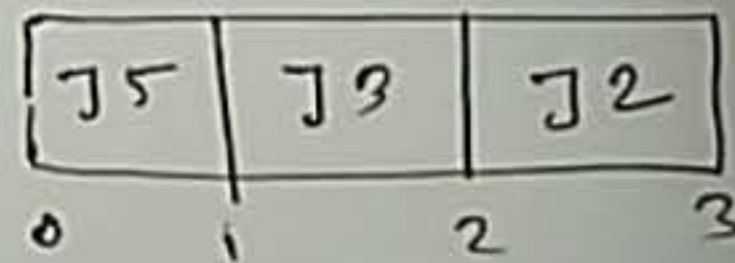

Job id → 1 2 3 4 5
 Profit → 10 5 20 1 15
 Deadline → 1 3 2 3 2

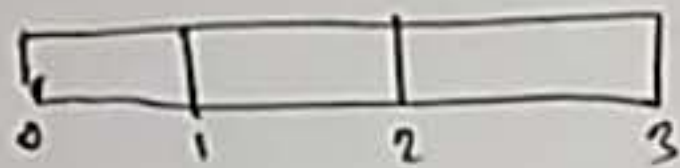

Job id → 3 5 1 2 4
 profit → 20 15 10 5 1
 deadline → 2 2 1 3 3

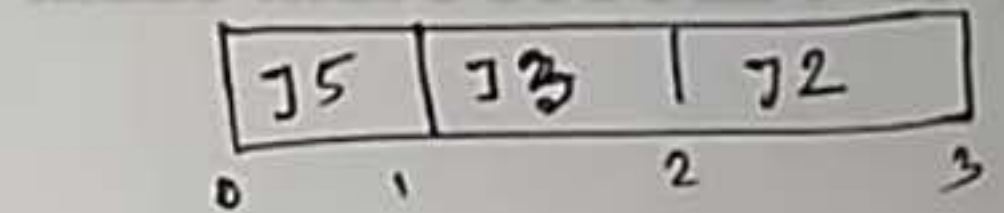

Job id	profit	deadline	slot assign
J3	20	2	[1, 2]
J5	15	2	[0, 1]
J1	10	1	Reject
J2	5	3	[2, 3]

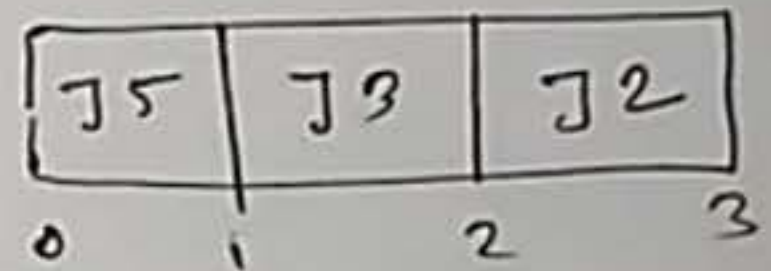

deadlines $\rightarrow$ 2 2 1 3 3

Job id	profit	deadlines	slot assign
J3	20	2	[1, 2]
J5	15	2	[0, 1]
J1	10	1	Reject
J2	5	3	[2, 3]
J4	1	3	Reject

Solution = $\langle J3, J5, J2 \rangle$.

$$\begin{aligned} \text{total profit} &= 20 + 15 + 5 \\ &= 40 \end{aligned}$$
